

# CELEBRATING MANUFACTURING IN THE SOUTH WEST

Tuesday 9th October, 0900-1400, Exeter Rugby Club

## Ken Hames

Leadership motivational speaker and television presenter

Ken is one of the country's leading motivational speakers focussing mainly on leadership, attitude and competence training. He provides a fascinating insight into pressure, survival, teamwork and motivation. His presentations bring strong evidence of best practice in difficult and demanding circumstances. His main effort is to promote development, provide motivation and give inspiration to leaders and managers.

## The Event

The South West Manufacturing Network plans to hold the event in October which is designed to raise the profile of manufacturing in the SW by celebrating its achievements. It is proposed to invite over 200 companies from the manufacturing sector to share, learn and network. For too long manufacturing has appeared to be old fashioned, dirty and a sector in decline, not so here in the South West. This event is to celebrate the sector and to share the successes and issues of South West manufacturing companies.

One key issue in the sector is leadership and management and by inviting Ken to the event we aim to share with you some of the ways in which he has been able to develop his thinking and actions. In addition there are several companies who we believe will stimulate much discussion, which we hope will continue over the networking lunch! The event will also include a small exhibition of manufacturing and business support organisations.

## South West Manufacturing Network

South West Manufacturing Network's membership consists of senior executives from manufacturing companies based in the South West. They represent, Cornwall Manufacturers Forum, Cornwall Engineering Network, CADI, Plymouth Manufacturing Group, Plymouth Engineering Network, North Devon Manufacturers Association, Somerset and Dorset Manufacturing Network and the Alliance Network. In total well over 750 companies.

The network's vision is **to be the leading voice in the South West for the manufacturing sector.**

Its mission is to:

- **Communicate** with all the benefits of manufacturing to the South West
- **Promote** the attractiveness of manufacturing careers in the South West
- **Collate** the depth and breadth of manufacturing in the South West
